

Nissan Energy Perks by EVgo Program: ARIYA Reservations

Short Description: The first 10,000 customers to reserve a 2023 Nissan ARIYA by January 31, 2022 from a participating dealer located in one of the select markets listed below are eligible for a \$500 charging credit (the “Charging Credit”) on the EVgo network upon purchase or lease of the vehicle. Charging Credit will be received after the final purchase or lease of the Nissan ARIYA. Charging Credit will be valid for 2 years from the purchase/lease date of the vehicle. Fleet customers not eligible. Offer will be redeemed once the transaction of the vehicle is complete and requires the customer to register and activate a customer account with the EVgo network within 365 days of the date of purchase or lease. Offer ends January 31, 2022 or when 10,000 reservations are received.

Eligible Customers: First 10,000 reservation customers who reserve a new Nissan ARIYA by January 31, 2022 and purchase or lease the reserved vehicle from a participating dealer located in the select markets listed below. Fleet customers not eligible.

Effective Dates: Nissan ARIYA reservations launch November 16, 2021. This reservation promotion is available only to the first 10,000 Eligible Customers who reserve a new Nissan ARIYA by January 31, 2022. ARIYA must be purchased or leased by Dec 31, 2022. The Charging Credit will be applied once the purchase of the Nissan ARIYA is complete. Eligible Customers must register and activate a customer account with the EVgo network within 365 days of date of purchase/lease, and have 2 years from date of purchase/lease to use the Charging Credit. Offer ends January 31, 2022.

Value of Benefit: Charging on the EVgo network is complimentary until the Charging Credit has been exhausted or has expired. Eligible Customers must register and activate a customer account with the EVgo network within 365 days of date of sale, and have 2 years from date of purchase/lease to use the Charging Credit. The EVgo network is owned and managed by EVgo, and is not within Nissan’s control. Availability of charging stations not guaranteed. Rates may vary across United States and may be different at time of charging.

Full Description: Beginning November 16, 2021, the first 10,000 Eligible Customers who reserve a new 2023 Nissan ARIYA from a participating dealer located in select markets listed below by January 31, 2022 and complete purchase of the reserved vehicle by December 31, 2022 are eligible to receive Charging Credit on the EVgo network. Offer requires registration and activation of a customer account with the EVgo network within 365 days of date of sale. Eligible Customers have 2 years from the date of sale to use the Charging Credit. Charging sessions beyond the credit amount are subject to additional fees. The EVgo network is owned and managed by EVgo, and is not within Nissan’s control. Availability of charging stations not guaranteed. Other terms and conditions apply – visit nissanenergyperks.com or a participating dealer. This offer is not compatible with other offers, is non-transferable and not redeemable for cash. Fleet customers not eligible. Offer ends January 31, 2022.
