

FLEET ELECTRIFICATION SOLUTIONS

With more than a decade of experience, EVgo provides charging solutions for your fleet across all major segments:

Reliability goes hand in hand with experience

- ▶ EVgo has more than a decade of experience operating Level 2 and DC fast chargers at scale
- ▶ EVgo's lab rigorously tests our hardware for reliability, safety, and interoperability

EVgo is a turnkey solution provider

Transition Planning

Optimized transition plan, total cost of ownership, and incentives support

Charger Equipment Provisioning

HW mix to meet fleet needs
L2, 50 kW – 350 kW DCFC

Infrastructure Deployment

Engineering, permitting, construction, installation, verification, and commissioning

Operations & Maintenance

SLA-based uptime guarantee, continual monitoring and maintenance, with 24/7 customer support

Software & Networking

Charger and vehicle management, smart charging

Systems Integration

Telematics, fleet, & other 3rd party systems

FLEET ELECTRIFICATION SOLUTIONS

Extend your route with a combination of charging options:

Fleet Depot Solutions

- ▶ Turnkey solutions for mission-critical fleet operations

Dedicated Charging Hubs

- ▶ Dedicated turnkey sites to charge your fleet vehicles "beyond the depot"

Public Network

- ▶ Expand your fleet's range by leveraging EVgo's public charging network of 800+ fast charging locations

Flexible ownership models to meet your financial objectives:

Customer-owned

Upfront cost for hardware and installation

+

\$/Stall

Monthly fee for operations

Or

Charging-as-a-Service (ChaaS)

No upfront cost

\$/Stall

Or

\$/kWh

Monthly fee covers hardware, installation, and ongoing operations by EVgo
